Mr. Curtis Dobler
Human Resources
The Dow Chemical Company
Michigan Division
47 Building
Midland, MI 48667

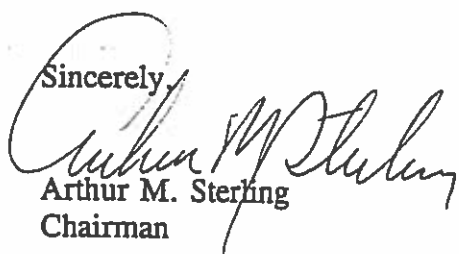

Dear Mr. Dobler:

We are pleased to acknowledge your recent contribution, which is identified on the attached memo. We believe it was Mr. Mall's intent to make this donation to the LSU Foundation/Rotary Kiln for the specified purpose within Louisiana State University. However, since the check is made out to the University, the LSU Foundation may not accept it without your authorization. To provide the authorization, would you please sign and return the enclosed Certification of Intent and return it in the enclosed self-addressed envelope? That will expedite the deposit of the check and allow us to put the money to your intended use right away.

We apologize for this administrative necessity.

Thank you!

Sincerely,

Arthur M. Sterling
Chairman

**KEN MALL RECEIVES THE 1995 MICHIGAN DIVISION CONSULTANTS' AWARD
AND DESIGNATES LOUISIANA STATE UNIVERSITY TO RECEIVE A DOW
CHEMICAL COMPANY COLLEGE GRANT**

The Louisiana State University has been designated as the recipient of a \$5,000 Dow Chemical Company college grant. This designation has been made possible by one of your alumnus, Ken Mall, Sr. Environmental Associate for Dow's Midland Environmental Technology Center. The college grant is one of the components of Ken's recent special recognition as the recipient of the 1995 Michigan Division Consultants' Award.

This award is aimed at recognizing "Continuous Technical Excellence" in manufacturing and represents the highest peer recognition achievable in Michigan Division manufacturing. The Michigan Division is a major manufacturing unit of The Dow Chemical Company.

An important part of the mission of the Consultants is to promote and enable technical superiority within the Michigan Division by:

- Recognizing superior performance by technical practitioners.
- Being champions for technical practitioners.
- Creating an environment that emphasizes the aggressive application of the engineering discipline.

To this end, a Michigan Division Consultants' Award has been instituted to recognize a Dow employee who for an extended period of time has:

- Addressed practical manufacturing needs.
- Demonstrated innovation.
- Successfully applied technology.
- Documented or communicated technical achievements well.

Ken Mall is being recognized for his expertise and efforts over the past three decades in applying innovative process engineering know-how to the areas of waste minimization, environmental unit operations, energy and thermal treatment technology.

Please join us in extending our sincere congratulations to Ken for his many valued contributions to Michigan Division manufacturing.

Department of Chemical Engineering

Date: January 11, 1996

To: Ms. Lorry Trotter
LSU Foundation

Subject: Establish Foundation Account for Rotary Kiln Incinerator

Please establish a Foundation account for Chemical Engineering / Rotary Kiln. The funds deposited to this account will be used to support the research efforts carried out at the department's Pilot-Scale Rotary Kiln Incinerator. Funds will be used for salaries, supplies, operating services, equipment, travel, advisory committee expenses, expenses associated with visitors to the kiln, and the like.

Thank you for your cooperation.
